SPACE OPERATIONS COMMAND

SPACE MISSION DELTAS

SpOC WEST

SpOC West / CFSCC integrates, conducts, and assesses global space operations in order to deliver combat relevant space capabilities to Combatant Commanders, Coalition partners, the Joint Force, and the Nation

STAR DELTA

Space Training and Readiness (Provisional)*

Builds lethality by developing combat-ready space forces and space warfighting capabilities in order to innovate and dominate in all domains

SPACE DELTA 2

Space Domain Awareness

Integrates ISR, space observation and environmental monitoring to enable space battle management and support ground operations

SPACE DELTA 3

Space Electronic Warfare

Operates electronic attack, protection, and support capabilities to protect and defend the space domain

SPACE DELTA 4

Missile Warning

Provides strategic and theater missile warning to the United States and our International Partners

SPACE DELTA 5

Command and Control

Maintains global awareness of operational environments and space forces to enable data-driven decisions

SPACE DELTA 6

Cyberspace Operations

Executes cyber operations to protect space operations, networks, and communications, and operates the Air Force Satellite Control Network

SPACE DELTA 7

Intelligence, Surveillance and Reconnaissance

Provides intelligence data to allow for the detection and characterization of adversary space capabilities

SPACE DELTA 8

Satellite Communications & Navigational Warfare

Provides position, navigation, timing and satellite communications to U.S. military, coalition partners, interagency partners, and commercial / civilian users

SPACE DELTA 9

Orbital Warfare

Conducts protect and defend operations from space and provides response options to deter and defeat adversary threats in space

* STAR Delta (P) will move to STARCOM upon activation

SEMPER SUPRA

SSC Macro Org Design (a/o Summer 2021)

“Semper Supra”
